

Economic Development Initiative Workforce Opportunity Grant Request for Proposals

I. Introduction

The mission of The Rapides Foundation is to improve the health status of Central Louisiana. The Rapides Foundation focuses its work in three strategic areas:

- Healthy People, to improve access to healthcare and to promote healthy behaviors;
- Education, to increase the level of educational attainment and achievement as the primary path to improved economic, social and health status; and
- Healthy Communities, to improve economic opportunity and family income, and enhance civic and community opportunities for more effective leaders and organizations.

The Economic Development Initiative makes the link between healthy economies and healthy people. Healthy economies with low unemployment rates and higher wage jobs provide people with the means to purchase medical insurance, make better healthcare choices and live healthier lifestyles.

The Workforce Opportunity Grant provides an award of up to \$75,000 for up to a twelve-month period to support collaborations between industry and postsecondary institutions to offer training/education for high-wage occupations for which there is demonstrated unmet employer demand within The Rapides Foundation's service area (Allen, Avoyelles, Catahoula, Grant, LaSalle, Natchitoches, Rapides, Vernon and Winn Parishes). Only accredited, public, nonprofit, postsecondary institutions are eligible for this award. The additional skills gained by training participants should lead to a moderate increase in wages. Additionally, all funded trainings should lead to an increase in production or service capacity from industry partners.

(Note: Due to the lack of available state funds, projects that qualify for the Louisiana Workforce Commission Incumbent Worker Training Program (IWTP) will temporarily be accepted.)

II. Background

Since its establishment in 1994, The Rapides Foundation has diligently pursued its mission to improve the health status of Central Louisiana. From the beginning, The Rapides Foundation leadership has viewed this mission in a very comprehensive and holistic manner, supporting investments in a host of focus areas. In 2008, the Foundation undertook a comprehensive Economic Development Initiative designed to address several major economic challenges facing

Central Louisiana. The Foundation's grantmaking strategy for the Economic Development Initiative revolves around three key components: Business Startups and Expansions; Workforce Skills and Development; and Business Culture and Environment.

In 2013, the Foundation, in partnership with the Central Louisiana Economic Development Alliance (CLEDA), funded a comprehensive study on the current and projected workforce landscape of Central Louisiana. This study titled "Beyond High School" indicated that 77% of the future job openings will require some training or certification beyond high school, but will not require a four-year degree. Additionally, it prompted the Foundation to add the Workforce Skills and Development component under its Economic Development Initiative to support efforts to build a cohesive and effective workforce development system in the region that meets the demand of employers, quickly responds to change, and provides training opportunities and career pathways for employment.

III. Purpose of Request for Proposals

The Workforce Opportunity Grant provides an opportunity to fund new educational training or certification support to qualified candidates for immediate high-wage job opportunities in The Rapides Foundation's nine-parish service area.
